

# Year Two Newsletter

March 2012

Dear Parents/Carers

We would like to share with you some of the things that the children in Year 2 will be learning about this half term.

In English we are exploring characters and setting leading up to the children developing their skills in story writing. We are also going to use information texts to retrieve information, using the contents and index pages to help us.

In our Mathematics we are finding out about 2d and 3d shapes, using mathematical vocabulary to describe their properties. We are also learning about fractions of shapes and numbers as well as using our previous learning to help us in our problem solving.

In History we are learning about the Tudors, in particular Henry VIII and Elizabeth I. The children will be able to use secondary sources to find out about their lives.

In D&T the children will be designing and making a hand puppet, thinking about who the puppet is intended for and what materials to use.

Many thanks for your continued support  
The Year 2 Team
