

Reception Newsletter

November 2019

Thank you

We would like to thank all of the adults who attended the 'Autumn Celebrations' workshops with the children. The children had a lovely morning and gained a lot from having you work with them in the classroom.

Learning Focus

Our Learning Focus for this half term is Celebrations. This coming week we will be learning about birthdays. We will be writing lists for a party and using weighing and balancing skills to bake a cake. Over the next few weeks, we will be using the stories 'The tiger who came to tea' and 'Dear Zoo' to inspire our learning. We will then be doing lots of Christmas activities.

Mathematics

In Mathematics, we are thinking about combining two groups to add them together and adding one more. We will also be describing shapes, weighing objects and thinking about length.

Reading

Thank you for your continued support with your child's reading at home. Supporting your child to read regularly at home really does make a difference and helps them to become a more confident reader. We do have a number of reading books missing from our sets so we would appreciate it if you could look at home to see if you have any so that we could lend them to another group of children.

Your child will soon receive a new sound card and tricky word bookmark so it would be helpful if you could help your child to identify these words and sounds in their reading book. If you have any questions about your child's reading, please come and speak to us at the end of the day.

Thank you for all of your support.
